

LET'S TALK ABOUT SINGLISM

WHAT IS SINGLISM?

Singlism is the stigmatizing of adults who are single. It includes negative stereotyping of singles and discrimination against singles

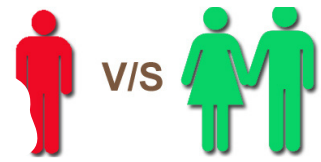

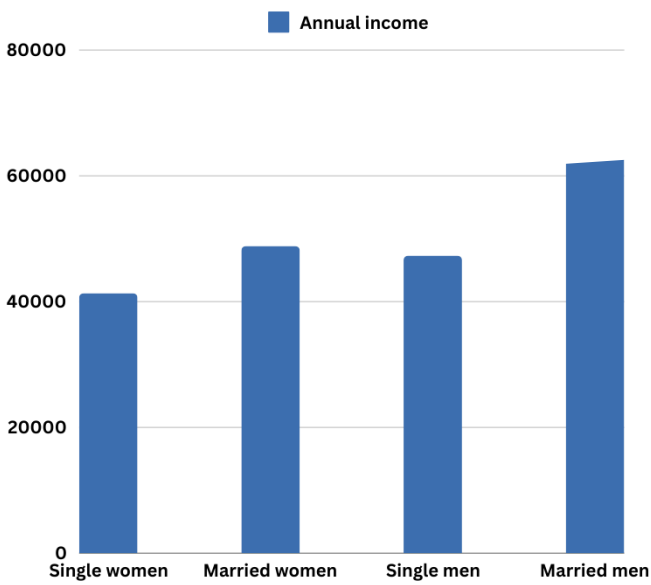

Today almost half of the U.S. population are not married. Currently singles is the fastest growing relationship demographic.

1000+

Federal laws benefit and protect exclusively married individuals

In 2018, a study by The St. Louis Fed showed that married men earn more than single men, married women, and single women across all age groups from 20 to 64. This difference is most significant around age 45, which is when married men tend to earn the most.

Single individuals deserve equal :

- Work benefits
- Taxation
- Housing
- Retirement Benefits

It's time for change!

Single individuals deserve equal rights under the law, free from discrimination based on marital status.

It's not just about equality—it's about justice for all.

Join us in calling for a more inclusive and equitable future for every individual.

End the Stigma
